14 Times Table Five-Day Plan

About 10 minutes a day. Each day names the facts to practice and one thing to do away from the screen. Tick the box when the day is done.

☐ **Day 1: the first half**

Say 14 x 1 to 14 x 6 out loud, then skip count by 14s: 14, 28, 42, 56, 70, 84.
Tip: Double the 7 times table: for 14 x 8, the 7s give 7 x 8 = 56, and doubling 56 gives 112. If the 7s feel shaky, build 14 from 10 and 4 instead and add the two parts.
Away from the screen: Write the 7 times table answers in one column, then double each one beside it for 14 x 1 to 14 x 6.

☐ **Day 2: the second half and the turnarounds**

Say 14 x 7 to 14 x 12, then flip each one: 7 x 14, 8 x 14 and 9 x 14 have the same answers.
Pattern: Every answer is even and is exactly twice the matching answer in the 7 times table. Counting by 14s lands on 14, 28, 42, 56 and 70, with the last digit following the cycle 4, 8, 2, 6, 0.
Away from the screen: Count two weeks at a time on a calendar: 14 days, 28 days, up to 168 days, saying each fact for the second half.

☐ **Day 3: the 3 hardest facts**

Say 14 x 7, 14 x 8 and 14 x 9 five times each, then go through the whole table once in mixed order.
Why these: 14 x 7, 14 x 8 and 14 x 9 give three-digit answers close to 100 and are easy to misplace by ten. Estimate with 10 x the number first, then add the rest.
Away from the screen: For the three hardest 14s facts, say the 7s fact first, then double it out loud. Write the answer once it comes quickly.

☐ **Day 4: the whole table, mixed**

Ask all 12 facts of the 14 times table in mixed order, out loud. Repeat any miss at the end.
Away from the screen: Take turns asking 14s facts during a walk. A miss is answered with the 10 and 4 split before the next fact.

☐ **Day 5: the self-check**

Answer the 12 questions below on paper, with no help and no timer.
Away from the screen: Keep the answer key face down until the end. Answer the 12 questions with a pencil, then check them together. Practice each miss three more times.

1. 14 × 6 = _____
2. 12 × 14 = _____
3. 14 × 10 = _____
4. 14 × 3 = _____
5. 4 × 14 = _____
6. 14 × 9 = _____
7. 14 × 5 = _____
8. 8 × 14 = _____
9. 14 × 1 = _____
10. 14 × 11 = _____
11. 7 × 14 = _____
12. 14 × 2 = _____

Answer key: 14 times table self-check

Check each answer together. Practice every miss three more times tomorrow.

1. 14 × 6 = 84
2. 12 × 14 = 168
3. 14 × 10 = 140
4. 14 × 3 = 42
5. 4 × 14 = 56
6. 14 × 9 = 126
7. 14 × 5 = 70
8. 8 × 14 = 112
9. 14 × 1 = 14
10. 14 × 11 = 154
11. 7 × 14 = 98
12. 14 × 2 = 28
